

VSI Radial Micro-HV Introducer Kits

Advanced Design in 21G Radial Artery Access

- Double taper dilator allows for gradual dilation of the radial artery puncture
- Lubricious sheath without hydrophilic coating provides for smooth introduction into the radial artery
- 21G needle provides small diameter puncture
- 0.018" nitinol mandrel guidewire with floppy, radiopaque coil tip offers support and atraumatic entry

VSI Radial Micro-HV Introducer Kits
